PART III – Comments. Please reference comment items responded to above in PART I or II, with Section and item number. Note: Use additional pages if necessary.

Part II, Section A, #3: Roof previously leaked from prior owners--only part of house had metal roof installed. New metal roof installed on North side remedied all existing leaks. All damage caused by aforementioned leaking was repaired and no leaks currently exist as far as current owners are aware of.

Part II, Section A, #11 (Sidewalks): Moving--Sidewalk has experienced movement caused by overgrowth of trees and shrub roots.

Part II, Section D, #1: City of Hay Springs Water Department

Part II, Section D, #4: City of Hay Springs

Part II, Section D, #9: City of Hay Springs contracted with Waste Management

Part II, Section D, #11: Source Gas

Part II, Section D, #12: Previous owners had indoor cats but that was over 20 years ago. Hopefully, current owners have performed mitigation to eliminate any and all pet odors and/or residues that may have existed.

Part II, Section B, #1 and #4: Current owners can not determine if any asbestos containing building materials were used since official tests were never performed. It is reasonable to assume since construction of the building was in 1920 this material may have been used. Current owners abated all materials that were reasonably assumed to have contained any asbestos. This would include but not be limited to floor tiling and the old heating system with wrapped pipes. All have been removed. Again, with respect to lead based paints, it would again be reasonable to assume lead based paint existed but no testing was done for this material either. Current owners again reasonably assumed lead based paints existed and all surfaces have been re-painted to abate any possible lead-based paint exposure.
